

ENGINES BY TYPE NUMBER & MODEL

The list on the following pages indicate Engine Type Numbers and corresponding Model Numbers. These will assist you in identifying Engines when customers order parts and fail to give you complete information.

File this in Section 12 of your Engine Service Manual replacing Form No. MS-4029-119 or any other previous lists you now have. Whenever an order is received for parts, and type numbers only are specified, refer to this new list.

If a parts order is received for a model number of which the first three numbers are 500., it indicates a Briggs & Stratton Engine sold to Sears Roebuck & Co. The number following the 500. is our type number. Reference to this list will enable you to identify the model letter.

EXAMPLE:

Sears Model 500.20054 indicates Type No. 20054
which is a Model "Z" Engine.
